

## **Editorial Policy**

The AUTEX RESEARCH JOURNAL (AutexRJ) is a quarterly journal devoted to the publication of theoretical and empirical scientific research work in all areas of textile science, technology, economics, and industrial policy.

This journal provides immediate open access to its content under the Creative Commons BY 4.0 license. Authors who publish with this journal retain all copyrights and agree to the terms of the above-mentioned CC BY 4.0 license.

Access to the AutexRJ is free of charge and open to everyone. Contributions are expected to be original works that have not been previously published and are not currently under consideration for publication elsewhere. Papers published in the journal will normally be reporting original research results obtained by the authors. Review papers of a high standard are welcome. While submitting the manuscript to ARJ author is obliged to send all figures included in the work in separate source files. This requirement is dictated by the attention to the quality of published work.

All submissions are double-blind refereed by two well-known scientists and experts in the subject area of the paper. Referees' comments will be communicated to authors, with suggested and required revisions. Upon revisions, papers should be re-submitted in the modified form, in the same manner as the original submission. All prepared material to be submitted for publication, as well as related correspondence, should be sent electronically using your Customer Panel, after registration in our service.
